KEY HIGHLIGHTS

3+ Years Professional Experience	3 Industries Jewellery · Health · Tech Startup	Full-Stack Mobile + Web + Backend
--	--	---

PROFESSIONAL SUMMARY

Results-driven Software Developer with 3+ years of hands-on experience delivering full-stack web and mobile applications in live production environments. Proven track record of taking projects from zero to deployment — including a company-wide ERP mobile app and a real-time communication platform. Comfortable working across the entire stack: REST API design in ASP.NET Core, cross-platform mobile development with Flutter, and modern frontend work in React. Quick learner who thrives in fast-paced teams and consistently ships clean, maintainable code.

CORE COMPETENCIES

ASP.NET Core	C#	Flutter	React
REST API Design	SignalR / WebSockets	SQL Server	ERP Integration
Mobile Development	Git & Version Control	OOP & Clean Code	Active Directory

WORK EXPERIENCE

Software Developer 09/2023 – Present
Fabor Jewellery Istanbul, Turkey

- Architected and delivered a production-ready cross-platform Flutter mobile app used daily by the company's operations team, integrated end-to-end with the ERP system.
- Engineered a real-time team chat feature using SignalR WebSockets, eliminating communication delays across departments.
- Designed and maintained a suite of RESTful APIs handling live ERP data sync — stock levels, orders, and customer records — with reliable error handling and logging.
- Implemented critical ERP workflows (inventory tracking, order management) directly in the mobile app, reducing manual data-entry steps for end users.
- Managed backend infrastructure (Active Directory, firewall, file server), demonstrating ownership beyond pure development scope.

Software Developer Intern 03/2022 – 08/2023
Hashbind A.Ş. Istanbul, Turkey

- Built and shipped authentication flows and login interfaces for client-facing web applications.
- Developed responsive, accessible frontends using React, JavaScript, HTML and CSS.
- Worked within a professional team Git workflow — branching, pull requests, and code reviews.

Software Developer Intern 06/2021 – 01/2022
HN ARGE A.Ş. Istanbul, Turkey

- Contributed to a clinical health system application handling sensitive patient data.
- Built REST API endpoints and backend services in C# with strict OOP principles.
- Gained experience with healthcare data compliance and management systems.

PROJECTS

ERP Mobile Application

Flutter • ASP.NET Core • SignalR • REST API • SQL Server

Production enterprise mobile app deployed in a live business, handling real operational data daily. End-to-end ownership: API design, database schema, mobile UI, and deployment. Includes real-time team chat (SignalR) and full ERP workflow integration — a strong signal of full-stack delivery capability in a real-world setting.

Real-Time Chat Application

ASP.NET Core • SignalR • Bootstrap • SQL Server

WebSocket-based instant messaging platform demonstrating low-latency backend architecture, persistent message storage, and clean responsive UI — directly applicable to collaborative SaaS products and notification-driven applications.

Weather Forecast Application

React • JavaScript • REST API

Location-aware React app with third-party API integration, dynamic state management, and a clean, mobile-friendly UI — showcasing rapid frontend prototyping skills.

Book Finder Application

React • JavaScript • REST API

Component-driven React application with async API fetching and intuitive search UX, demonstrating structured frontend architecture and attention to user experience.

EDUCATION

Düzce University

2022

Bachelor's Degree in Computer Science | GPA: 3.0 / 4.0

TECHNICAL SKILLS

Backend:	C#, ASP.NET Core, Dart, JavaScript, REST API, SignalR
Frontend:	React, Flutter, HTML, CSS, Bootstrap
Database:	SQL Server, Database Design
Tools:	Git, Visual Studio, VS Code, Active Directory
Concepts:	OOP, Clean Code, MVC, Real-Time Communication, ERP Integration, Agile

LANGUAGES

Türkçe: Anadil (Native) İngilizce: Upper-Intermediate (B2)
